

Automated Library System

Your Apache County libraries are now online. Polaris, our new system, is operational in Alpine, Concho, Greer, Round Valley, St. Johns and Vernon. If you have not registered for the new card, please go directly to your local library and do so. Bring your current ID or driver's license and proof of residency. The registration takes about 5 minutes. Parents or guardians will need to sign the registration forms for their children between the ages of 5 and 18.

Your old blue card or the more recent white one, are no longer valid. You will be issued a beautiful new tan card for Polaris. The new system will allow you to check your account from any Internet connection, even those at home. You can explore the card catalog, renew a book, place a hold, see what you have checked out, and when the items are due. You can even choose to keep a reading list.

The new cards are free, so come in soon and see how your world expands at your Apache County libraries.
