

What's a Library without the Internet?

We realize that patrons' reaction to a library without Internet access might be something like Edvard Munch's painting *The Scream*. But, certain things can't be helped, and due to a needed equipment repair on **Thursday, December 3rd, 2009**, all libraries in Apache County will be **without Internet** on that day. **The libraries will be open regular hours, and materials can still be checked out.**

The various branches are encouraging patron use that day by giving the lack of Internet availability a name: Vernon Public Library sees it as "A Blast from the Past"; Alpine, Sanders, and St. Johns Public Libraries are "Unplugged."

December 3rd could be the day to research that matter you always meant to look into but never had the time. We have books on home improvement, medicine, crafts, history, biography, and so much more.

Vampires are all the rage (especially with the young adult crowd), and the various branches have many good choices which you can sink your teeth into.

Maybe we can interest you in a one of hundreds of paperbacks including westerns, political thrillers, romances, and fantasy.

Don't forget that your public libraries carry numerous magazines for your perusal also.

Reread a classic.

Read a story to a child or a friend.

We hope to see you on the 3rd.
